To: Whom It May Concern
From: Sikeston Department of Public Safety, Missouri
Date: July 15, 2026

Re: FCC Filing Cover Letter – Re-Submission

This filing is a re-submission of a previously submitted FCC Filing. The purpose of this re-submission is to update **Section 7**, which reflects the correct **AT&T ESInet In-State Point of Interconnection (POI) ZIP Code**.

Per FCC guidance, this update resets the compliance timeline for **Originating Service Providers (OSP)** activities under applicable FCC rules.

No other sections of the original filing have been modified as part of this re-submission. Please let us know if any additional information is required.

Sincerely,

Ryan Smith
Captain Ryan B. Smith # A21
